

**In the Drawings:**

Appended hereto is a new set of drawings for the application, addressing the matters raised by the Examiner in the drawing section on page 2 of the Office Action.

### Remarks

The Examiner's reconsideration of the application is urged in view of the amendments above, attachments hereto, and comments which follow.

Turning first to the drawings, a new drawing set is appended hereto, dealing with the objections raised to figure 1 and figures 4-17. Approval of the changes is requested.

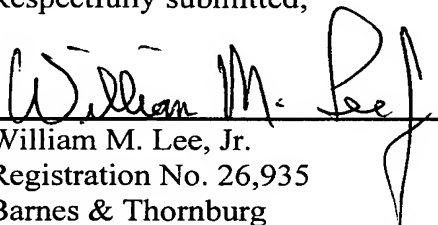

In the section beginning on page 3 of the Office Action and continuing to the top of page 4, the Examiner has rejected several of the claims under 35 U.S.C. §112 as being indefinite. Each of the matters raised by the Examiner has been corrected, to the extent that the claims have not been cancelled, and it is believed that all is now in order and the remaining claims are now in condition for allowance.

The Examiner has rejected claims 47-50 and 55 under 35 U.S.C. §102 as being anticipated by Brown U.S. Patent No. 5,761,083, and claims 51-53 have been rejected by the Examiner under 35 U.S.C. §103 as being obvious over Brown. Those claims have been cancelled as they appeared, and claim 50 has been rewritten in independent form to include the allowable subject matter of claim 54. It is therefore submitted that claim 50, as amended, is also in condition for allowance.

In view of the foregoing, it is believed that the application is now fully in condition for allowance, and the Examiner's further and favorable reconsideration in that regard is urged.
